CODIB Systems Group

In May 1964 consideration being given within OCS to its relationships with the CODIB Systems Grpup.

It was felt that USIB shld establish an ADP Committee chaired by OCS(Becker), to handle all community computing problems. CODIB to handle documentation problems.

Meanwhile, question of whether OCS should manage CODIB Systems Grp - or OCR - most CODIB duties fell into documentation area rather than system designing for the community.

SCIPS

STAT

May 1964 - ExDir/Comptroller Kirkpatrick requested monthly reporting ~~tp~~ to his office on CIA ADP systems development (covering [   ] NPIC, & CHIVE).

Question then was whether to reconstitute the CIA ADP Committee chaired by AD/CS, as report channel, or to convene special group for purpose of reporting to Kirkpatrick. Mr. Becker felt OCS should be responsible.

Org'

OCS - Interrelationships - (DDI - OCR - ~~DDI/MM~~ Paul Borel)

22 May 1964 memo by Mr. Kirkpatrick gave Paul Borel
overall coordination role for CIA information handling
systems — which Borel interpreted as meaning the
coordinating of CHIVE, [   ] NPIC's effort, and OCR.   STAT
and responsibility for resolving conflicts which might
arise from competition for scarce resources, which he
also interpreted as applying to all major CIA information
handling machine systems.
